HUBER DO BRASIL

HUBER Sistema Integrado de Lavagem do Material Peneirado IRGA

- Increased dewatering performance of up to 40 % DS
- Volume, weight and disposal cost reduction by up to 70 %
- Easy retrofit

All HUBER ROTAMAT® screens can be equipped with the IRGA system that washes the screenings within the screen basket to remove virtually all faeces. The screenings press integrated in the ROTAMAT® screen's rising pipe dewaters the screenings to up to 40 % DR. Wastewater from the channel or process water can be used as wash water. The press liquor returns to the channel.
